

# TURN SERVICES COMPANY ANNOUNCEMENT

## Turn Services Acquires Michoud Fleet

Turn Services is pleased to announce the acquisition of Michoud Fleet. Located on the Michoud Canal, Michoud Fleet provides barge fleetling, shifting and cleaning services. Positioned between the Industrial Locks and the East Flood Gate, this location is ideal for tows transiting the Gulf Intracoastal Waterway, vessels waiting for lock turn and barge lines wanting to turn eastbound tows quicker and more efficiently. Mario Muñoz, President of Turn Services, commented: “This strategic location, coupled with Turn’s Dockside and Meraux Fleets, make Turn Services well positioned to provide lock and flood gate assist services by having fleetling locations on both sides of the Industrial Locks.”

For additional information or service inquiries, please contact Matt Hayden, Vice President of Sales and Customer Service at (504) 934-4638 or [mhayden@turnservices.com](mailto:mhayden@turnservices.com).

*Turn Services is one of the largest independent fleetling and shifting companies in the United States. The company, founded in 1990 and headquartered in New Orleans, Louisiana, provides a variety of services to companies operating on the inland waterways of the United States.*
